

# Improving the Academic Integrity Module

Von Button, Manager, Learning Design

**Centre for Learning Innovation and Professional Practice (CLIPP)**

February 2020

Task	Who	Progress
Update AIM to ensure students complete both parts and not just the quiz.	Von	Done
Work with ITS to bulk-enrol students into AIM rather than self-enrolment.	Von/ITS	Partially completed
Ensuring all students from AQF4 and above complete AIM	Deans/ADTQ	Not yet done
Work with ITS to ensure student location is identified so that partner provider students can be tracked	Von/ITS	Problematic
Determine the consequence for non-completion	AI Group	Clarification Required
Work with ITS to ensure tracking of students' AIM completion or non-completion at university level	Von/ITS	Problematic
Ensuring lecturers know AIM is mandated but is not be an assessment task	Deans/ADTQ	Not yet policy

# Discussions with ITS

## 1. Enrolling:

- Who? Location? Source?

## 2. Reporting A:

- Where? – Moodle, External (e.g. FDLGrades)?

## 3. Reporting B:

- Who can view it? – Individual academic, University level

# Discussions with ITS

- Semester 1: Completion “Expected”
  - Bulk-enrol ALL HE Students - DONE
  - Enable Self-enrol of TAFE Students - DONE
  - Notification to students (through Moodle) who have not completed AIM.
- Semester 2: Completion “Compulsory”

# Enrolment

Task	Who	When
Work with ITS to bulk-enrol students into AIM rather than self-enrolment.	Von/ITS	Partially completed
Ensuring all students from AQF4 and above complete AIM	Deans/ADTQ	

- SOLUTION TO DATE:
  - Bulk-enrol ALL HE students (DONE).
  - Enable self-enrol for AQF4 and above TAFE students.
- OPTIONS:
  - Identify and bulk-enrol ONLY AQF4 and above TAFE students.
  - Bulk-enrol ALL TAFE students (then identify students AIM is compulsory for).

# Reporting

Task	Who	When
Work with ITS to ensure student location is identified so that partner provider students can be tracked	Von/ITS	Problematic
Determine the consequence for non-completion	AI Group	Clarification Required
Work with ITS to ensure tracking of students' AIM completion or non-completion at university level	Von/ITS	Problematic

- What do we mean by location/campus/Provider?
- Requires integration with external systems – e.g. FDLGrades, Campus Solutions
