

SSEIT Research Equipment Scheme 2020 (RES20)

To foster an excellent research culture, develop grant application skills, and improve research environment, the School of Science, Engineering and Information Technology establishes an annual Research Equipment Scheme (RES).

Staff are encouraged to apply for a research grant up to \$5,000 each, using the application template below. The applications will be reviewed and ranked by the school leadership team based on merit but with special consideration for establishing labs.

All grants need normally to be spent by the end of 2020. Grants cannot be used for any other purposes other than procuring research equipment.

Applications should be normally no more than 3 pages, using the headings listed in the template below. Weightings of the three areas are also shown in the template.

Reports of any form of research funding received from the school in 2018–2019 must be submitted along with the application, no more than 1 page.

Staff should submit applications to AssocDean.ResearchSoSEIT@federation.edu.au by the closing date **Friday 26 June 2020**.

Application template

Project title:

Applicant name(s):

List of equipment

Purpose of the equipment (**40%**)

Expected outcomes, and potential impact to your research discipline and your future research (**40%**)

Budget and justification with quotes (**20%**)

Budget items should be listed in order of priority with labels essential/optional so that the school leadership team can approve funding less than requested by removing some items.
